

CLAIMS

1. A card comprising at least one integral flap formed from the card for clippable engagability of said card along an edge of a paper sheet to thereby attach said card to said sheet.
2. A card as claimed in Claim 1 wherein said card is constructed of a paper product.
3. A card as claimed in Claim 2 comprising a plurality of said integral flaps.
4. A card as claimed in Claim 1 comprising a plurality of said integral flaps.
5. A card comprising at least one generally V-shaped integral flap formed from the card for clippable engagability of said card along an edge of a paper sheet to thereby attach said card to said sheet.
6. A card as claimed in Claim 5 wherein said card is constructed of a paper product.
7. A card as claimed in Claim 6 comprising a plurality of said generally V-shaped integral flaps.
8. A card as claimed in Claim 5 comprising a plurality of said generally V-shaped integral flaps.
9. A card comprising at least one integral flap for clippable engagability of said card along an edge of a paper sheet to thereby attach said card to said sheet.
